Helical Products Names HC Pacific as Its New Global Partner

ROSEMONT, Ill., September 29, 2017 (Newswire.com) - Helical Products, a precision metal components company of MW Industries, announced its appointment of HC Pacific as its master distribution partner for its standard HELI-CAL Flexure flexible coupling product line. Under the new partnership, HC Pacific will provide this state-of-the-art coupling solution to the domestic marketplace. This agreement, effective Oct. 1, 2017, will expand HC Pacific's existing portfolio of high-quality coupling solutions to customers in multiple vertical markets.

"We are delighted with our appointment as Helical's master distribution partner," said Andrew Pramschufer, president of HC Pacific. "HC Pacific brings to Helical 45 years of world-class experience as a leading global distributor of products and services. Our emphasis on customer service, technical support, and flawless execution will support the needs of a broad range of markets including aerospace, industrial, and medical. We look forward to bringing Helical's unparalleled Flexure flexible coupling product offering to our customer base."

Kevin Kuhn, General Manager of Helical, commented, "Helical looks for value-added distribution partners to expand our customer base. Our engineering capabilities and custom manufacturing create unique solutions for mechanical misalignment. HC Pacific will help us provide our outstanding solutions to a broader group of customers."

About HC Pacific
