

Aveox Names HC Pacific as Its Strategic Distribution Partner

HC Pacific begins global distribution of Aveox's standard products

SIMI VALLEY, Calif. ([PRWEB](#)) July 16, 2018 -- Aveox, a premier designer and manufacturer of high efficiency DC Motors, Controllers and Power Conversion Modules, announced its appointment of HC Pacific as its exclusive distribution partner for a suite of standardized products. This agreement, effective July 1, 2018, will further HC Pacific's expansion into electronic and electromechanical componentry. "We are thrilled with our appointment as AVEOX's strategic distribution partner," said Andrew Pramschufer, President of HC Pacific. "AVEOX's advanced motion technologies are in high demand. Our emphasis on customer service, technical support, and flawless execution will support the needs of a broad range of markets including military, unmanned vehicles, commercial aerospace, medical and industrial."

"AVEOX continues to experience rapid growth tied to the success of our proprietary BLDC Motors, Controllers and Power Conversion Modules with Active Power Factory Correction (APFC)," said "David Palombo, Aveox CEO. "HC Pacific's proven formula of inventory investment coupled with premier customer service will further enable the commercialization of our standardized products by ensuring that our growing customer base will receive the products they want, when they need them."
